ADVENTURE TIME TEENS

Our awesome Teen Room is an amazing space set aside for adolescents who are in 6th grade and up! A place they can gather with friends to chill playing pool, ping pong, or foosball. They can kick back and relax and enjoy a show on the huge 60" TV or play video games.

We have created a space with motivational wall art and welcoming furniture to allow them a space of their own.

Adolescence is the pivotal period between childhood and adulthood. It is a time when youth need to acquire the social skills, competencies, values and right attitude to carry them forward to successful adulthood.

We feel that the Center allows our youth/teen members some independence while at the same time providing a space they can avoid the choices that may be presented to them in a completely unsupervised setting.

Our staff feels that is important to help our youth navigate through this phase in their life with hopes to steer them in the right direction. When the kids are here, they are engaging in activities and rarely consumed by social media!

YOUTH DANCE

No more trips off the island for dance class! This class is for all levels and ages 5-16. (Classes to be eventually split as levels and age groups grow.) Your child will learn technique, discipline, and how to encourage and work with other students in an environment where they can learn and grow. Dance is great for motor skills, fine motor skills, confidence, positive social interaction and release of energy. The class will concentrate on Ballet, Jazz & Hip Hop.

CROSSFIT

CROSSFIT KIDS!

CrossFit Kids is a method for teaching CrossFit to children ages 6-17. Based on the principle of Mechanics, Consistency and then Intensity,

CrossFit Kids emphasizes good movement throughout childhood and adolescence. Consistently good mechanics translates to physical

literacy, enhanced sports performance and fewer sports injuries for kids.

Not only that, a vast body of research indicates that exercise is beneficial to cognitive function, which means consistent adherence to the program can have a positive impact on children's academic achievement.

CrossFit Kids is meant to be BIG fun for all ages. Broad-Inclusive-General fun. Fun means we provide an active alternative to sedentary pursuits, which means less childhood obesity and all-around better health for our children.

Further, the needs of second graders and high-school varsity wrestlers differ by degree and not kind; the program is scalable for any age or experience level and accounts for the varied maturation status one can find in a class full of kids.

CrossFit Kids is designed to be minimalist; it is inexpensive and often requires little equipment, allowing a wide array of socioeconomic groups an opportunity to be physically fit and physically active throughout their lives.

ANNA MARIA CROSSFIT

CrossFit is constantly varied functional movements performed at relatively high intensity. All CrossFit workouts are based on functional movements, and these movements reflect the best aspects of gymnastics, weightlifting, running, rowing and more.

These are the core movements of life. They move the largest loads the longest distances, so they are ideal for maximizing the amount of work done in the shortest time. Intensity is essential for results and is measurable as work divided by time—or power.

The more work you do in less time, or the higher the power output, the more intense the effort. By employing a constantly varied approach to training, functional movements and intensity lead to dramatic gains in fitness

For more information on how to participate, please contact Anna Maria CrossFit and Owner Shay Coleman directly at: annamariacrossfit@gmail.com or (941)216-5058.
