Active Isolated Stretching

Active Isolated Stretching (AIS) is a technique that helps people maximize the effectiveness of stretching without causing the sort of discomfort that keeps a lot of us away from it, by performing a stretch for no longer than 2-3 seconds using a rope to help assist in the stretch. These stretches provide maximum benefit and can be accomplished without opposing tension or resulting in trauma.

- Instructor: Brenda Canning
- Schedule: Tuesdays 7-7:45 am

All Levels Yoga

All Levels Yoga is a class that uses the breath to create movement from pose to pose. Some classes poses will be held for several breaths and others will be a bit faster pace, but all classes will be accessible to new students and challenging for those with more experience.

- Instructor: Paige Phelps
- Schedule: Mondays 9:15 -10:15 am

Balance, Core, and Stretch

This class covers a variety of exercises designed to improve balance and muscular strength, increase flexibility, improve your joint stability, and increase your range of motion. This class will be split with 20 mins. of balance work, 20 mins. of Core Exercises, and 20 mins. of stretching.

- Instructor: Susan George
- Fridays 7:45-8:45 am

Body Blast

Spend only 30 minutes making the most of every second through strength training, aerobic conditioning, HIIT training, and more.

- Instructor: Jennifer Richeson
- Wednesdays 10:30-11 am

Cardio, Core & More

A class that has you doing CARDIO will be the instructor's choice, including step, kickboxing, and more. This class will incorporate CORE strength and get the heart rate going along with building a solid foundation while you work on the core muscles in your hips, abdomen, and lower back to help maintain Balance and Stability by doing exercises using your own body weight, small hand weights, and whatever other fun toys the instructor would like to use.

- Instructor: Susan George
- Schedule: Wednesdays 7:45-8:45 am

Pilates/Yoga Mix

This class will build core strength and flexibility by focusing on the strongest abs and back, long lean muscles, excellent grace of movement, and control and concentration. The Pilates technique is one of the most effective and challenging forms of exercise. Consistent training in the Pilates method will improve everything you do.

- Instructor: Laura Bennett
- Schedule: Tuesdays and Thursdays 9:15 -10:15 am

Power Flow Yoga

Discover the building blocks of the practice of yoga for stability and endurance through smooth flowing yoga movements. Explore detailed attention to the foundation of the poses (asanas) through creative cueing and breathwork while cultivating strength, stability, and flexibility. This class encourages inward curiosity and self-exploration.

- Instructor: Dana Sky
- Schedule: Fridays 7:45-8:45 am
